(Professor of Composition, Shobi University)

As a part of the event "*Media Week 2006 : IRCAM Workshop and Concert in Japan,*" Shobi University is proud to present a special lecture by IRCAM team from Paris. They will show us their latest researches in music technologies and how they can be applied to musical creations. Admission is all free of charge and no need to make a reservation. Please join us for an exciting session with world's most advanced researchers of computer music!
